

# **Social Entrepreneurship through Collaboration**

**Pichai UAMTURAPOJN**

# Purpose of collaborative research

The research's vision is to create a better way to share experiences, where local communities can be connected through their local wisdoms.

The research aims to develop the collaboration platform between local practitioners and social entrepreneurs for building socially engaged communities.

# Purpose of collaborative research

It focuses on social entrepreneurship towards offering an inspiring mechanism to share the collaborative and active platform.

The research is to call collaborating alignment between bottom up work of social entrepreneurs in local communities and the SDGs ambitions of diversity of audiences.

# Outline and progress of research

Local community is at the heart of the research project towards connecting neighbors to neighbors.

The research has been collaboratively working with Mr.Somsak Boonkam, Ashoka Fellow and Founder of Local Alike Company, who has created opportunities for local communities to challenge better their livelihoods through community-based tourism.

# Outline and progress of research

The research team has actively worked with local scholars and practitioners for strengthening the collaboration platform between local communities by introducing "The Local Assembly" platform.

The Local Assembly is preparing for local knowledge and information exchange throughout creating interactive communication channel both online and offline.

# Outline and progress of research

The "Local Assembly" project aims to create value-led collaboration platform to connect local communities with each other.

# Outline and progress of research

2017

The "Local Assembly" has planned to work with local practitioners who has engaged & practiced social entrepreneurship skills that enhance their social awareness.
